

Educational Application of Character Value and The Nation's Culture

By learning this chapter, students will be able to make an expression related to date and time. We know that date and time are two important things in our life. Without learning how to arrange date and time, we will not be able to be a discipline person. So, by learning a lesson about date and time, we can be a discipline and responsible person.

Glossary

- cardinal : a number denoting quantity (one, two, three, etc.)
date : the day of the month or year as specified by a number
time : the indefinite continued progress of existence and events in the past, present, and future regarded as a whole
ordinal : a number defining a thing's position in a series, such as "first," "second," or "third."

Flash News

Fibonacci Number

In mathematics, the Fibonacci numbers are the numbers in the following integer sequence, called the Fibonacci sequence, and characterized by the fact that every number after the first two is the sum of the two preceding ones (en.wikipedia.org).
