LIVEWORKSHEETS

Name: _____

1.) Kason went to Bela's bakery and ordered 3 mango smoothies, 3 chocolate-covered cherries, and 1 peanut butter cookie. How much money did he spend?

2.) Bela's parents visited her bakery and ordered 24 peanut butter cookies to serve at a party. How much did they spend?

3.) Brian and Josie are getting married. At their wedding, they decided to serve 2 of the three-layer coconut cakes and 2 of the three-layer cherry cakes. They also bought 100 chocolate-covered cherries to put at people's seats. How much did they spend?

4.) The girls on Bela's soccer team stopped by her bakery after their game. They were very thirsty. All 12 girls bought a smoothie. How much did the girls spend in all?

5.) The Anderson family visited Bela's bakery before going on a long road trip. They decided to stock up on treats to eat on the road. They purchased 2 chocolate chip cookies, 2 cups of coffee, 2 peanut butter cookies, 5 chocolate-covered strawberries, and 1 lemon bar. How much money did they spend in all?

LIVEWORKSHEETS

6.) Charlotte and Kesha visited Bela's bakery. They sat in the cozy purple seats as they worked on a school project together. They each bought a cup of tea and a cookie. How much did they spend in all?

7.) Ms. Hernandez purchased many items at Bela's bakery for her daughter's birthday party. She purchased the three-layer cherry cake, 12 mint chocolate chip cupcakes, and 12 chocolate chip scones. How much money did she spend?

8.) Ryan went to Bela's bakery with $12.00. He bought a lemon bar and a cup of coffee. How much money did he have left?

9.) Bela started out the day with $40.00 in her cash register. Throughout the day, she sold 20 of the three-layer cakes, 4 scones, 9 cups of coffee, 2 pomegranate chocolate bars, and 1 lemon bar. Bela gave her brother $5.00 from the cash register that she owed him. How much money does Bela have in the cash register now?

10.) Kenzie has $5.00 in her pocket. Does she have enough money to buy a chocolate chip scone and a cup of tea? If not, how much more money does she need? If so, how much money will she get back?
