I can do your tests (8)…… attending your course if necessary.

I look forward (9)……. hearing (10)…… you as soon as possible.

Your faithfully,

J.B John.

Exercise 6: Read the text then answer T (true) or F (false)

People use many sources of energy. Ancient people used only their arms, hands, and simple tools until they discovered fire. Later, people learned to use the energy of the wind to sail ships. Then they learned to use animals to do work. In the eighteenth and nineteenth centuries, people began to use machines. The first machines used steam. They burned coal to heat water. The hot water turned into steam, and the steam engine did the work. Later, people began to use the gasoline engine, and today people are using nuclear energy.

Energy is one of the basic concepts, or ideas, of physics. It is the ability to do work. Without energy we could live. We need energy to work, and scientists are always looking for new sources of energy.

1. None of the world's energy comes from the sun. _____

2. Wind, steam, and gasoline are sources of energy. _____

3. People have never used nuclear energy. _____

LIVEWORKSHEETS

4. Energy is the ability to do work. _____

5. We need new sources of energy. _____

Exercise 7: Read the following passage then answer the questions.

Environmental pollution is one of the most serious problems of mankind today. Air, water and soil are necessary to all living things. Man operates machines and vehicles that fill the air with noise. They also dirty the air with gases and smoke. Badly polluted air can cause illness and even death. Man destroys natural beauty by littering garbage on the land and in the water. They poison the water with chemicals and other waste materials. Polluted water kills fish and other marine life. They damage the soil with too many fertilizers and pesticides. Pollution of soil reduces the amount of land that is available for growing food. Environmental pollution also brings ugliness to man's naturally beautiful world. Governments should pass laws that require people and factory owners to stop certain polluting activities.

1- What is mankind's most serious problem nowadays?
.....

2- According to the writer, who makes the earth dirty?
.....

3- Why do fish and other marine life die?
.....

4- Is it good using a lot of fertilizers and pesticides?
.....

5- Does pollution of soil reduce the amount of land that is good for growing?
.....

6- What should governments do about this problem?
.....

Exercise 8: Choose and circle the word (A, B, C, D) that best completes each sentence
