

### Circumference of a circle

Find the circumference of each circle from the given radius or diameter =

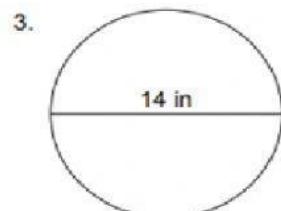

Let pi  $\pi$  = 3.14

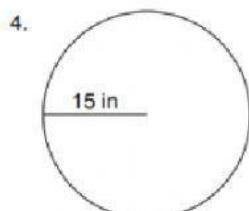

$$C = \underline{\hspace{2cm}} \text{ yd}$$

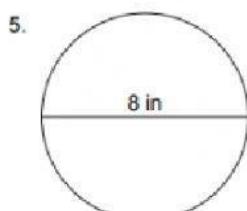

$$C = \underline{\hspace{2cm}} \text{ ft}$$

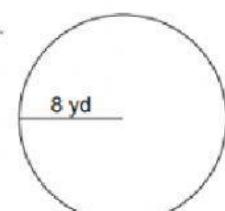

$$C = \underline{\hspace{2cm}} \text{ in}$$

$$C = \underline{\hspace{2cm}} \text{ in}$$

$$C = \underline{\hspace{2cm}} \text{ in}$$

$$C = \underline{\hspace{2cm}} \text{ yd}$$

(7) Given that the diameter of a circle is 42 cm. What is the circumference

$$\text{Pi } \pi = \frac{22}{7}$$

$$C = \underline{\hspace{2cm}} = \text{cm}$$
