Ex2: Translate this paragraph into Vietnamese.

(4) D

Children are most negatively affected by city life. Parents are **reluctant** to let children play freely in the city, fearing for their health and safety, and nature is something many children in the city may never have a chance to experience. Childhood **obesity and depression** are reaching epidemic levels. **Authorities** have begun to **acknowledge** the problem, and innovative programs<sup>4</sup> that give children an opportunity to spend time in nature are being introduced in countries around the world.
