## **REDUCE, REUSE, RECYCLE**

**There are 3 ways to make the Earth a greener place: Reduce, reuse and recycle.**

**When people reduce, it means they are using less of something. This means less waste.** Turning off the water when we brush our teeth is a way of reducing. We don't waste water by doing this.

**Reusing is to use the things we already have again.** We can use re-usable shopping bags made of cloth instead of plastic bags when we go to a supermarket. Using both sides of the paper is also a way of reusing.

**Finally, we can recycle. Recycling is to create new materials from old ones.** Materials like paper, plastic and metal can be recycled. You can recycle the things like newspapers, soda cans, plastic containers and magazines.

**If we want to live in a green and clean world, we must take care of our world.**
