

UNIT 4: MEASUREMENT

Lesson 2: Mass

I. Vocabulary

English words	Vietnamese meaning
Mass	Khối lượng
Weight	Trọng lượng
Volume	Thể tích

II. Practice

1. Convert kilograms to grams.

a. $1kg = \dots\dots\dots g$

b. $4kg = \dots\dots\dots g$

c. $11kg = \dots\dots\dots g$

d. $172kg = \dots\dots\dots g$

e. $15kg = \dots\dots\dots g$

f. $1523kg = \dots\dots\dots g$

2. Convert grams to kilograms.

a. $3000g = \dots\dots\dots kg$

b. $60000g = \dots\dots\dots kg$

c. $1000000g = \dots\dots\dots kg$

d. $130000g = \dots\dots\dots kg$

e. $1450000g = \dots\dots\dots kg$

f. $621000g = \dots\dots\dots kg$

3. One block of butter has a mass of 250 grams.

What is the mass of this block of butter in kilograms?

Answer: _____

4. Nick borrows 10 superhero books from the library. A superhero book has a mass of 200 grams. What is the mass of the books Nick borrowed?

Answer: grams.

5. Given the mass of some fruits.

= 185g

= 200g

= 260g

= 250g

- a. Which is the heaviest fruit?
A. apple B. pear C. orange D. mango
- b. What is the weight of 4 pears?
A. 1kg B. 2kg C. 800g D. 500g
- c. Four _____ is equal to 1 kilogram.
A. apples B. pears C. oranges D. mangoes
- d. Which is the lightest fruit?
A. apple B. pear C. orange D. mango
