

Name :

Class :

Date :

RUMUS	Kubus	Balok
Volume	s^3	$P \times l \times t$
Luas Permukaan	$6 \times s^2$	$2(pl + pt + lt)$

Hitunglah volume dan luas permukaan bangun ruang di bawah ini!

$$V = \quad \times \quad \times \quad = \quad \text{cm}^3$$

$$LP = \quad \times \quad \times \quad = \quad \text{cm}^2$$

$$V = \quad \times \quad \times \quad = \quad \text{cm}^3$$

$$LP = (\quad \times \quad + \quad \times \quad + \quad \times \quad) = \quad \text{cm}^2$$

$$V = \quad \times \quad \times \quad = \quad \text{cm}^3$$

$$LP = \quad \times \quad \times \quad = \quad \text{cm}^2$$

$$V = \quad \times \quad \times \quad = \quad \text{cm}^3$$

$$LP = (\quad \times \quad + \quad \times \quad + \quad \times \quad) = \quad \text{cm}^2$$
