

Expanded Notation

Write the expanded notation for:

$$\begin{aligned} 1.45 &= (\underline{\quad} \times 10 + \underline{\quad} \times 1) \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 2.86 &= (\underline{\quad} \times 10 + \underline{\quad} \times 1) \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 3.20 &= (\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}) \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 4.51 &= (\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}) \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 5.87 &= (\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}) \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 6. \ 10 &= (___ \times ___ + ___ \times ___) \\ &= ___ + ___ \\ &= ___ \end{aligned}$$

$$\begin{aligned} 7. \ 40 &= (___ \times ___ + ___ \times ___) \\ &= ___ + ___ \\ &= ___ \end{aligned}$$

$$\begin{aligned} 8. \ 92 &= (___ \times ___ + ___ \times ___) \\ &= ___ + ___ \\ &= ___ \end{aligned}$$

$$\begin{aligned} 9. \ 77 &= (___ \times ___ + ___ \times ___) \\ &= ___ + ___ \\ &= ___ \end{aligned}$$

$$\begin{aligned} 10. \ 14 &= (___ \times ___ + ___ \times ___) \\ &= ___ + ___ \\ &= ___ \end{aligned}$$
