I. Let's have a look at the following sentences from the text.

1. My kingdom should remain independent.
2. You should treat me as your equal.
3. I must say every Indian soldier fought like a tiger.

In sentence 1, **should** indicates obligation whereas in 2, it indicates condition.

In sentence 3 '**must**' is used to indicate insistence on the part of the speaker / necessity.

It is also used when the speaker has authority over the listener.

It is important to understand how the modals '**should**' and '**must**' are used.

(People sometimes use **should** to indicate something that is desirable and **must** to indicate obligation. However, some people use them interchangeably.)
