Complete the essay below by filling in the blanks with correct answer.

“Will robots have emotions?”

 <table border="1" data-bbox="272 1081 719 1167"><tr><td>tasks</td><td>work</td><td>however</td></tr></table>	tasks	work	however	<p><u>Introduction</u></p> <p>We like robots mainly because they can perform many _____ in a short time. We also like them because they can do their _____ automatically. _____, do you think robots will ever have emotions? Many people have different opinions on this subject.</p>		
tasks	work	however				
 <table border="1" data-bbox="272 1568 719 1653"><tr><td>On the other hand</td><td>better</td></tr></table> <table border="1" data-bbox="272 1688 719 1774"><tr><td>help</td><td>convey</td><td>communicate</td></tr></table>	On the other hand	better	help	convey	communicate	<p><u>Body 1</u></p> <p>_____, having emotions may _____ robots to make crucial decisions just as a human would. They may even be _____ at understanding and caring for other human beings. If such robots exist, we will be able to _____ with them and _____ our ideas effectively.</p>
On the other hand	better					
help	convey	communicate				

On the other hand

replace

emotions

mistakes

humans

Body 2

_____, intelligent robots with _____ may act in their own interests. This will affect us greatly because the robots will create a 'jobless future' for _____. I believe many companies prefer robots to human because robots will rarely make _____. Therefore, maybe robots will _____ humans entirely in the future.

In conclusion

innovative

emotions

Conclusion

_____, I think robots will probably have _____. After all, human beings are _____, so there is a possibility that robots with emotions can be created.
