## Let's Learn!

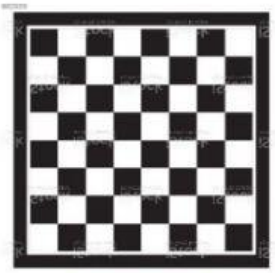

When two straight lines meet at a right angle, they are **perpendicular** to each other.

The line shown are **perpendicular lines**.

Choose **4** objects with perpendicular lines

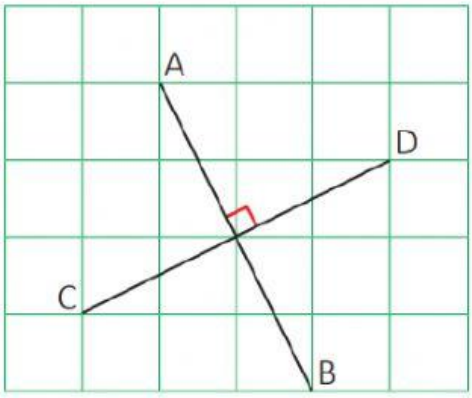

LIVEWORKSHEETS

These lines are drawn on a square grid.

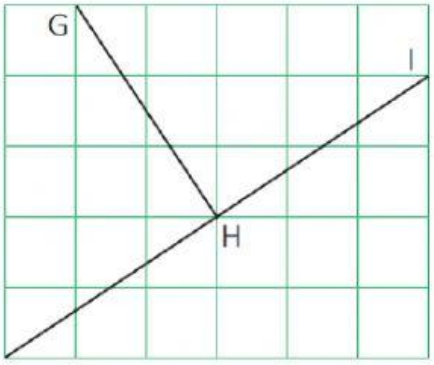

AB and CD cross at right angles.
AB **is perpendicular** to CD.
We write: AB ⊥ CD

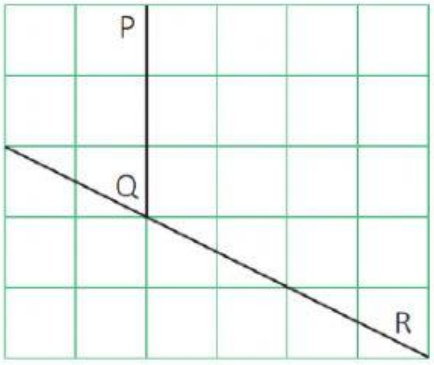

⊥ stands for **is perpendicular to**.

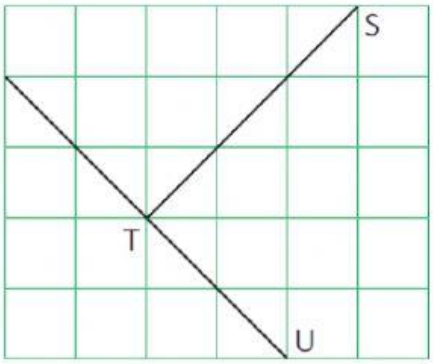

**a** Is GH ⊥ HI? ☐

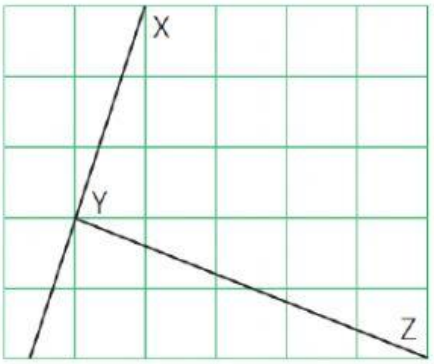

**b** Is PQ ⊥ QR? ☐

**c** Is ST ⊥ TU? ☐

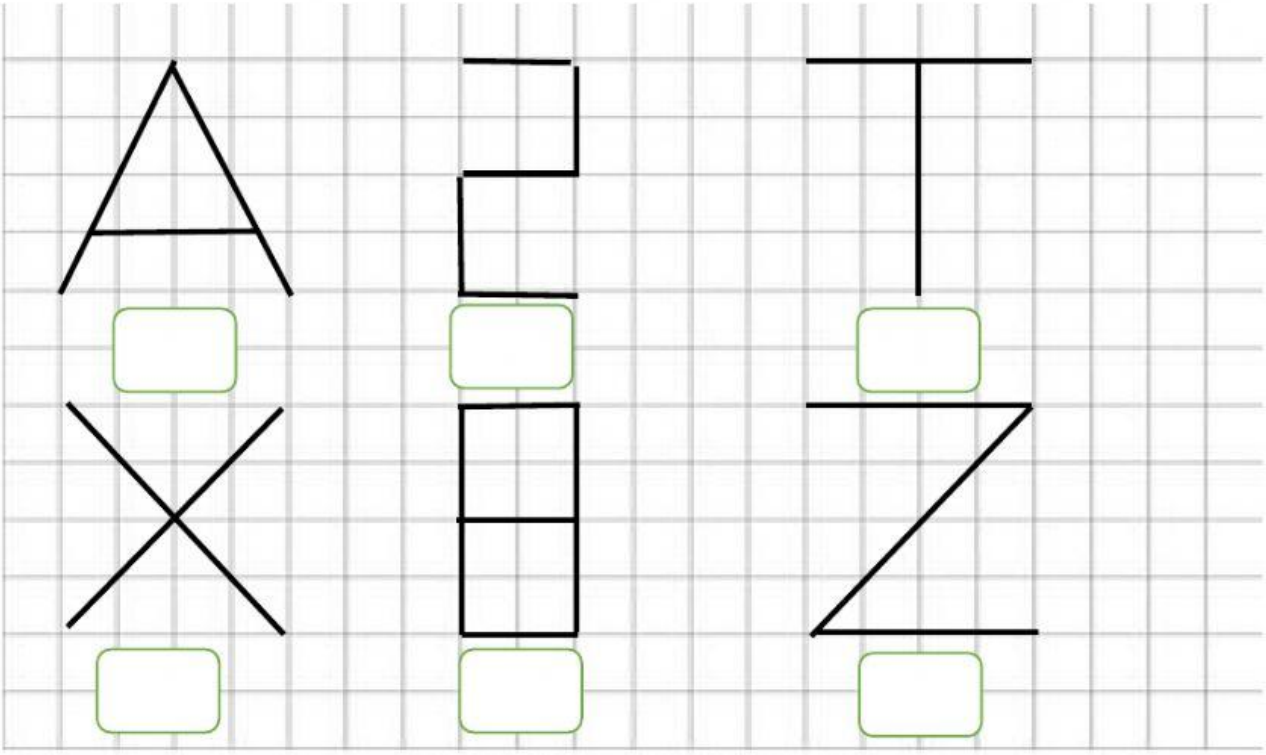

**d** Is XY ⊥ YZ? ☐
