

This calculation uses the **grid method** to show the answer to  $6 \times 47$ :

$\times$	40	7
6	240	42

$$240 + 42 = 282$$

Answer:  $6 \times 47 = 282$

Use the grid method to work out these multiplications.

a)  $4 \times 58$

$\times$		

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Answer:  $4 \times 58 = \underline{\hspace{2cm}}$

b)  $3 \times 85$

$\times$		

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Answer:  $3 \times 85 = \underline{\hspace{2cm}}$

c)  $5 \times 64$

$\times$		

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Answer:  $5 \times 64 = \underline{\hspace{2cm}}$

d)  $9 \times 35$

$\times$		

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Answer:  $9 \times 35 = \underline{\hspace{2cm}}$

e)  $6 \times 73$

$\times$		

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Answer:  $6 \times 73 = \underline{\hspace{2cm}}$
