

Water Cycle

Read each sentence and choose the correct answer.

1. What is the water cycle?
 - A. Cleaning and purifying water
 - B. Using water in the washing machine to rinse clothes
 - C. Continuous movement of water from the Earth's surface to the air and back to the Earth's surface
2. The first process in the water cycle is known as _____.
 - A. evaporation
 - B. precipitation
 - C. condensation
3. The second process in the water cycle is known as _____.
 - A. precipitation
 - B. condensation
 - C. evaporation
4. The third process in the water cycle is known as _____.
 - A. condensation
 - B. precipitation
 - C. evaporation
5. What happens in **condensation** stage?
 - A. Water droplets fall from the clouds as rain
 - B. The sun warms water and causes water vapour to rise
 - C. Water vapour reaches cool air and changes from gas to liquid, then form clouds

6. What happens in **evaporation** stage?
- A. The sun warms water and causes water vapour to rise
 - B. Water droplets fall from the clouds as rain
 - C. Water vapour reaches cool air and changes from gas to liquid, then form clouds
7. What happens in **precipitation** stage?
- A. Water droplets fall from the clouds as rain
 - B. Water vapour reaches cool air and changes from gas to liquid, then form clouds
 - C. The sun warms water and causes water vapour to rise

Label the water cycle:
