

La centaine.

Si tu connais les familles de 10, tu connais les familles de 100. Complète les égalités pour faire 100.

J'observe

Si $3 + 7 = 10$, alors
 $30 + 70 = 100$

$$100 = \boxed{} + \boxed{}$$

$$100 = \boxed{} + \boxed{}$$

$$30 + \boxed{} = 100$$

$$40 + \boxed{} = 100$$
