A ☐ The Sydney Opera House in Sydney, Australia, is a very famous building. Jørn Utzon, a Danish architect, designed it. They started building it in 1957, and they finished it in 1973. The building looks like a sailing boat. There are 1,000 rooms in the Sydney Opera House. You can visit it to watch a show or to eat in one of its restaurants!

B ☐ In 1904, Antoni Gaudi designed a building in Barcelona, Spain. Its name is Casa Batlló because the Batlló family lived there. Today people can visit this amazing building. Casa Batlló is very strange. The balconies look like masks. Look at the walls; they are not straight. What about the roof? Does it look like a hat or a dinosaur? What do you think?
