Villagers in the Southern usually live in houses lined up along central road and built on stilts to keep above flood waters. Along the coastal lines, fishermen depend on the sea as a means of livelihood. In the Central of Vietnam, a place suffering lots of natural disasters all the year round, citizens tend to be more ***studious*** and hard-working than those in regions with favourable conditions. People in the central highlands and the northern mountains live by growing rice, rubber trees coffee and tea as well as hunting.
