LIVEWORKSHEETS

III. Read the passage. Decide if the statements are true (T) or false (F).

Terraced rice fields are located in the northern mountainous provinces. Local ethnic minority peoples can grow rice and establish terraced rice fields, one after another, from the foot to nearly top of mountains. In distance, the terraced rice fields look like a picture of nature with heart-catching beauty keeping tourists to stay for admiration for a while. This picture however has its colour changed seasonally. As usual in April and May, the local people water their fields at full to prepare for a new crop. At this time, the surface of terraced fields shines like a mirror. In June and July, the terraced rice fields with fully-grown paddy rice and forest trees spread the green out to the entire area. In September and October when autumn ends, the terraced rice fields look like golden silk scarves flying over in the wind above green mountain slopes. Famous terraced rice fields can be found in Yen Bai, Ha Giang. Especially, the fields in Sa Pa (Lao Cai Province) were voted as one of seven most beautiful and impressive terraced rice fields of Asia.

1. Terraced fields are established from the middle to the top of mountains. .....
2. Tourists are amazed with the beauty of terraced fields. .....
3. Terraced fields keep its color the same all year round. .....
4. Harvest time falls in September and October. .....
5. Sapa' terraced fields were among the most beautiful fields of the world. .....
