WEDNESDAY

AMAZING ANIMALS

BY TEACHER JUNE

Joe : Salim, do you know all the animals that live in this world?
 Salim : Not all. There are tigers, elephants, snakes, monkeys, giraffes and millions of others.
 Joe : Which is the fastest marine animal?
 Salim : I think it is either the blue whale or the killer whale.
 Joe : The killer whale is faster.
 Salim : Did you know that the African elephant is heavier than a rhino?
 Joe : Yes, and the elephant lives longer than a tiger.
 Salim : OK, which animal is smaller, a bee or a fly?
 Joe : A bee, I think. What about a snail?
 Salim : A fly is smaller than a bee. A snail is definitely bigger than a bee and a fly.

B Read again and tick (✓) the correct answer.

1. Which animal is bigger?

Snail		Bee	
-------	--	-----	--

2. Which is the heavier animal?

African elephant		Rhino	
------------------	--	-------	--

3. Which marine animal is faster?

Blue whale		Killer whale	
------------	--	--------------	--

4. Which animal lives longer?

Elephant		Tiger	
----------	--	-------	--

5. Which animal is smaller?

Bee		Fly	
-----	--	-----	--

Circle the correct word.

1. A snail is (slow / slower) than a turtle.

2. A giraffe is (tall, taller) than an ostrich.

3. A butterfly is (pretty / prettier) than a moth.

4. A hippo is (fat / fatter) than a rhino.
