## Take care of yourself and your body will take care of you!

### Germs make you sick.

But if you have a strong  
and healthy body, you  
can fight germs.

### Here are some easy ideas.

1. Sleep is important. Children aged 8-10 should sleep eight hours every night.
2. For a strong body, you need exercise. Exercise three times a week, for at least 30 minutes.
3. To fight germs, food and water are very important. Eat six servings of fruit and vegetables every day. And drink eight glasses of water a day.
4. Finally, if you want to stay away from the dentist, stay away from sweets, especially between meals!
