Question 35. A. conflict B. emotion C. attachment D. freedom

Read the following passage and mark the letter A, B, C, or D to indicate the correct answer to each of the questions.

As the parent of three boys (high school, middle school and pre-school), I can say without reservation that I love them equally. Each can be a pain in his own special way, and each is very different from the other. So my relationships with each of them are different, but they all receive love, support and direction.

Our two oldest will occasionally complain that we are treating **them** differently, and we always say that we are: different time, different place and different child. And then we ask if they feel we are treating them **unfairly**.

If the answer to that is yes, then we talk about it.

We make no claims to perfection and are willing to admit mistakes to our kids. This is more important as they get older, but it's important when they're young, too. It is also true that each parent has a different relationship with each child, and it takes communication to make sure that there's no resentment between parents as well. Families thrive on communication, even when it's loud.
