3 I drink milk with my breakfast _____ .
4 I go to my dance class _____ .
5 I woke up late yesterday _____ .
6 I only eat chocolate once a week _____ .

2. Read the leaflet and circle "so" and "because"

Don't catch a cold!

It's horrible to have a cold. You sneeze and cough. Your nose runs and you can feel very tired or have a headache.

What can you do to stop getting a cold?

- Fresh air helps, so open windows and go for walks outside.
- Wash your hands often because hands which are not clean can spread colds.
- Eat a healthy diet to keep your body strong. Fruit is especially important and scientists think oranges can help because they have a lot of vitamin C.
- Get lots of sleep, because when you are tired you can get ill more easily.

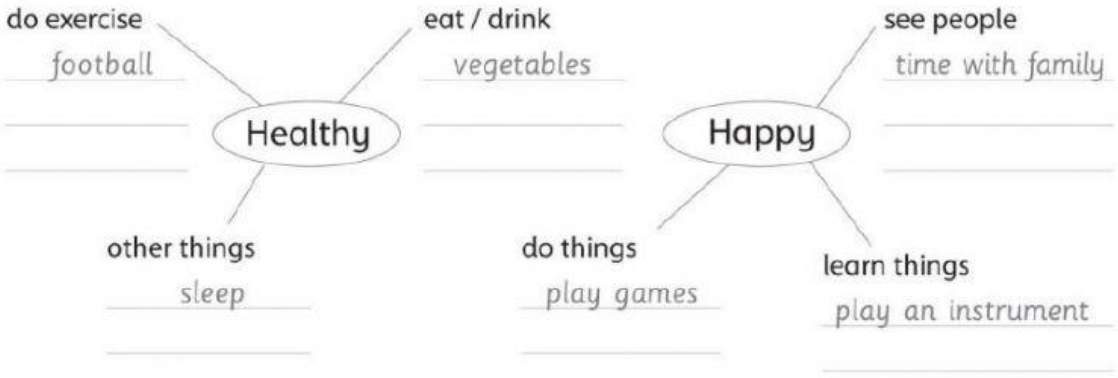

If you are unlucky and do get a cold, what can you do to avoid giving it to others?

- Colds are passed on through the air, so don't cough or sneeze near other people's faces.
- Use tissues when you blow your nose or sneeze. Then put the tissue in the bin and wash your hands.
- Don't share cups because you can pass on a cold this way too.

LIVEWORKSHEETS

3. *Complete the mind map*

walking fruit search the Internet swimming open windows listen to music
