Basketball

Basketball started in 1891 in Canada / America.

It's very cold in the winter and students want a sport

to play outdoors / inside .

So, a P.E / Art teacher named James Naismith invented

a new sport: basketball / volleyball .

He put fruit basket at the end of the park / court .

The players scored points by throwing / jumping balls into the basket.

Today, people play basketball outdoors / inside .

You can find basketball courts in parks / markets .

You just need a ball, some friends and a basketball cup / hoop .

One of the tallest / taller basketball players is Sun Ming Ming.

But you don't have to be tall to play basketball. A very famous player,

Muggsy Bogues is only 160 / 116 cm tall.
