Test Yourself

Smart Mathematician

1. Complete the calendar with the rest of the days in the month.

October 2011						
M	T	W	T	F	S	S
	1		3	4		
	8	9			12	13
14			17		19	
21	22		24			27
	29		31			

2. Look at the calendar and answer.

1. How many days are there in October?

2. What day is October 23rd?

3. Matthew goes to French classes on Monday and Wednesday. How many French classes will he have in October? Which dates in October will Matthew have classes?

4. The parent-teacher meeting with Caroline's teacher is on October 29th. What day of the week is October 29th? If today is October 3rd, how many days are left until the meeting?

Wise Citizen

3. Complete the table.

	Hot Regions	Temperate Regions	Cold Regions
Where are they?	They are located between both tropics.	They are located between the tropics and the polar circles.	They are located between the polar circles and the South and North Poles.
How do the Sun's rays hit?			
What kind of climate is found there?
