LISTENING: MATCHING

1. Read some information about a website offering student exchange programmes. Decide if the sentences are true T or false F.

Spend a term or a whole year in another country

Stay with a host family and go to a local college. Learn all about the culture, and maybe learn a new language. Make new friends and have a great time. You need to pay for flights and take some pocket money, but that's all. Host families are not paid. All they ask is that you help with jobs around the house and join in with family activities.

Go to student_exchange.com and explore our website to learn more!
