

## MATHS 2

### UNIT 1A: 6.3. EQUIVALENT MACHINE

#### I. Fill in the blanks.

The equal machine makes  calculations.

**equal/equivalent:**

have the  value or amount.

'5 + 2' and '9 - 2' have the same value of 7, so they are . They are called equivalent.

#### II. Calculate and choose the equivalent calculations

*(Tính và chọn phép tính tương đương)*

$$27 - 9 = \square + 9$$

$$55 + \square = 99 - 22$$

$$33 - 5 = 20 + \square$$

$$\square + 22 = 54 - 15$$

$$50 + 7 = 80 - \square$$

$$14 + \square = 35 + 21$$
