GENERAL REGISTER OF NAVARRE

The GENERAL REGISTER OF NAVARRE was created at the end of the XII century. In that moment, the king was Sancho VI el Sabio. Why is this important to know? Because at the beginning it wasn't a register, it was a palace.
There, they lived the kings of Navarre. After Sancho VI el Sabio, it also lived there Sancho VII el Fuerte.
But it looks like new...Why? Because Rafael Moneo renovated it in 2003. Rafael Moneo is a very important architect all around the world, and he was born in Tudela, Navarre.

Nowadays, in that building we can find the General Register of Navarre. There, in the register, there are all type of documents about Navarre, such as census, newspapers, maps, photographs, etc.

- When was it created?

_____

- Who was the king in that moment?

_____

- Who lived there?

_____

- Who renovated it and when?

_____

- What can we find now there?

_____
