The Beatles

The Beatles were one of the most famous music groups of the rock era, and many consider them the best musical group on Earth. Initially they affected the post-war baby boom generation of Britain and the U.S. during the 1960s, and later the rest of the world. Certainly, they were the most successful group, with global sales exceeding 1.1 billion records.

While they were originally famous for pop music, their later works achieved a combination of popular and critical acclaim perhaps unequalled in the 20th century.

Eventually, they became more than recording artists, branching out into film and — particularly in the case of John Lennon. The members of the group were John Lennon, Paul McCartney, George Harrison and Ringo Starr, all from Liverpool, England.

Beatlemania began in the UK and exploded following the appearance of the Beatles on The Ed Sullivan Show in the United States, on February 9, 1964. The pop-music band became a worldwide phenomenon with worshipful fans by culture commentators and others such as Frank Sinatra.

Some of this was confusion over the sources of their music (a similar confusion was evinced in 1956 over Elvis Presley), and some of it was simply an incredulous reaction to the length of their hair.

1. They were the best selling group in history. True False
2. All the members were from Liverpool. True False
3. They appeared on TV on February 9, 1964. True False
