My town looks very modern now but it was different when I was younger. There was a bank in the main square and there is a library now. Behind the bank there was a hotel, but there weren't many tourists in our town so there's a supermarket now. It's open until 10 p.m., so you can go shopping in the evening. In the past, all the shops were closed at 6 p.m.

There was a cinema in the centre of town but it's closed now. There is a new cinema next to the park. It's bigger but it's a bit too far for me. I need to catch a bus to go to watch a film, and I don't go there very often.

There's a new cool stadium, as well. Our local football team plays there. They are much better than they were in the past! We often go there to watch the games with my friends.

I like my town - the people are nice and friendly. It's not very exciting, but it's a good place to live.

- The library is in the main square. True
- The supermarket is open longer than the shops in the past. False
- There is a new cinema in the centre of town. False
- The author doesn't like watching football games. False
- She thinks her town is an exciting place to live. False
