7. Label the pictures.

1. _____

2. _____

3. _____

4. _____

5. _____

Reading

8. Read the article about dangerous sports.

Why Risk It All?

by Jamie Harris

What makes some people do dangerous sports? I prefer to watch sports from my sofa.

Everyone has seen the thrill of the bungee jump: the image of someone at the top of a very high bridge while they're waiting to throw themselves off. But why would any normal person decide to do something so dangerous? Clearly, there are many people who enjoy the danger.

Bungee jumping is often a once-in-a-lifetime event, but what about doing a dangerous sport for a living? Look at Formula One, for example. Car racing is much safer than it used to be, but it's still too dangerous for me.

Everyday sports can sometimes be as dangerous as sports like car racing. For example, people can get hurt playing baseball and basketball. I played soccer when I was younger, and there were lots of injuries during every game! Luckily, none of them were serious.

In my opinion, the most frightening sport is skydiving. I can't imagine wanting to jump out of an airplane. They say it's the most amazing feeling while you're falling toward the earth very fast. Then when your parachute opens, you come down gently. I'd love to know what that feels like, but I know I'll never try it! What if the parachute doesn't open? But I guess that's why some people enjoy dangerous sports – the thrill of not knowing what might happen.

Are the sentences true or false? Write *T* (true), *F* (false), or *NI* (no information).

1. Jamie like watching dangerous sports on TV more than everyday sports.

2. Jamie can't understand why some people like bungee jumping.

3. Jamie doesn't think car racing is dangerous anymore.

4. Jamie got an injury playing soccer.

5. Jamie would like to know the feeling of skydiving.
