Reading Comprehension : Main Idea and Supporting details

Directions: Read the story summary below to answer the questions.

Frogs

Frogs are animals that are good at jumping. Most frogs live by or in the water. Some frogs are many different colors. Frogs that swim have web feet and other frogs have sticky feet. Frogs eat bugs and worms. They use their tongues to catch food. A frog's young is called a tadpole. Then they grow into adult frogs.

1. What is this story all about?

2. Which sentence is a supporting detail about frogs?

3. What do frogs use to catch their food?

4. What are tadpoles?

5. Do all frogs have web feet?
