

The Moon

1. Watch the video and complete the information:

- ★ The time it takes for the moon to orbit the Earth
- ★ The name of the line that divides day and night on the moon
- ★ The meaning of "waxing"
- ★ The name for the lunar phase when we only see a small segment of the moon (like a banana)
- ★ Another name for "first quarter"
- ★ The meaning of "waning"

2. Put the names of the lunar phases in the correct place

Full moon
New moon
First quarter
Waxing crescent
Waning crescent
Third quarter
Waxing gibbous
Waning gibbous
