The **less** you spend, the **happier** people feel.

The **higher** you climb, the **later** they marry.

The **more** we work, the **colder** it gets.

The **brighter** the sun, the **colder** we feel.

The **more** I worry, the **heavier** it rains.

The **older** we grow, the **wiser** we become.

The **younger** you begin to learn English, the **more** you save.

The **darker** the berry, the **easier** it is.

The **more educated** women are, the **more** we earn.

The **stronger** the wind blows, the **sweeter** it is.

The **darker** the sky is, the **less** I sleep.
