Ex.3 Read the article and match the two parts of the sentences

King Alfred the Great

Alfred was born in 849 AD. When he was 22, he became King of Wessex which was a part of southern England. At that time, the Danes - an army from Denmark - ruled parts of northern England. They wanted to rule Wessex, too. They attacked many times, but they couldn't beat Alfred's army. His army wasn't big but it was fast. They moved around the country quickly and the Danes couldn't catch them.

Alfred had many adventures. Once he dressed as a street musician so he could secretly find out information about the enemy. Another time he stayed with an old woman. She didn't know he was the king. She asked him to watch some cakes on the fire. But Alfred didn't watch the cakes because he was worried about the Danish army, and the cakes burned. The woman was upset and Alfred said he was very sorry!

Alfred loved books and literature. When he was a boy, he learned a whole book and could remember every word. When he was older, he translated books from Latin. There were many kingdoms in those days and Alfred helped them to become one country – England.
