

Chapter- 10

Topic: Tenths and Hundredths

Name of the student:

Class & Section:

Find the lengths of following and complete the table:

| Tens<br>(10) | Ones<br>(1) | . | Tenths<br>(1/10) | Length of eraser = 4 cm 9 mm<br>= 4.9 cm<br>= 49 mm | 1 cm = 10 mm<br>1 mm = 1/10 cm<br>1 mm = One tenth of cm |
|--------------|-------------|---|------------------|-----------------------------------------------------|----------------------------------------------------------|
| 0            | 4           | . | 9                |                                                     |                                                          |

| Tens<br>(10) | Ones<br>(1) | . | Tenths<br>(1/10) | Length of pencil =<br>=<br>= | 1 cm =<br>1 mm =<br>1 mm = |
|--------------|-------------|---|------------------|------------------------------|----------------------------|
|              |             | . |                  |                              |                            |

| Tens<br>(10) | Ones<br>(1) | . | Tenths<br>(1/10) | Length of pencil =<br>=<br>= | 1 cm =<br>1 mm =<br>1 mm = |
|--------------|-------------|---|------------------|------------------------------|----------------------------|
|              |             | . |                  |                              |                            |
