FINAL TEST 2017**Gold Experience.****READING****A mountain adventure**

Grace and Jim Stewart have had a wonderful summer adventure in Kenya. Two weeks ago the two teenagers climbed the 5,896 metres of Mount Kilimanjaro with their parents. They climbed for seven days and saw lots of amazing things. The two teenagers are very tired after days spent trekking in the mountains, but they are also very happy. Did they enjoy their time spent climbing one of the world's highest mountains? 'I'll never forget it,' says Grace. 'It was very beautiful: tall trees and rainforests ... there was always something new to see. It was boiling hot during the day and as we got higher it got much colder. The nights were freezing! Jim says, 'We had a very good guide with us who told us lots of stories about the mountain and the plants we saw. Of course, what we saw from the top was the best thing for me – it was amazing!' How did the family prepare for their climb? Grace laughs. 'There aren't any mountains near my home in England, but we went for lots of long walks in the hills. The hardest thing was packing our backpacks – we needed lots of warm clothes and a tent for the evenings, but we didn't want our bags to be too big and heavy. So what are the family's plans for the rest of the holiday? Jim says, 'We've never been to Kenya before so we're going to have a few days on a beach now.'
