Read the text and answer question 1 to 5.

HOW TO MAKE MINI PLANT POTS

Materials:

- Some potting soil - 1 egg carton - Four seed packets - Water

Tools:

- Scissors - A spoon - A black marker - A plate

Steps :

1. Cut off the top off the egg carton and leave the bottom part.
2. Take four cups from the egg carton and smoothen the edges by cutting them with scissors.
3. Mark each pot with the name of each plant.
4. Add a few scoops of potting soil to each of the egg cups.
5. Place a few plant seeds in the labelled pot.
6. Set all the pots in a large plate. Place them near the window to get enough sunlight.
7. Water the plants sufficiently according to the intruction found in the seed packets.
8. Move the plants to bigger pots or to the garden when they grow too big to fit the pots. The plants can be directly planted in the garden without getting rid of the egg cups because they are decomposable.

1. Which part of the egg carton do we use for making the pots?

- a. The bottom part
- b. The middle part
- c. The upper part
- d. The whole part

2. "Place a few plant seeds ..." (Step 5)

Which picture represents the underlined word?

a.

c.

b.

d.

3. "Mark each pot with the name of each plant." (Step 3)

Why should we do the intruction above?

- a. To mark the level of the soil in each pot.
- b. To decorate the pots with colourful markers.
- c. To make sure that we put the seeds into the correct cups.
- d. To make sure that we plant the seeds according to the instruction on the package.

4. Where should we put the pots?

- a. In the field
- b. In a bathroom
- c. In a dark room
- d. Near a sunny window

5. "...smoothen the edges by cutting them with scissors." (Step 2)

The underlined word refers to

- a. The scissors
- b. The plants
- c. The edges
- d. The seeds
