

## **SCIENCE GRADE 5**

**1. When you stir salt with water, you make a mixture that is known as a**

- A. solute
- B. solvent
- C. solution
- D. solubility

**2. A \_\_\_\_\_ is the substance that dissolves the solute.**

- A. solute
- B. solvent
- C. solution
- D. solubility

**3. The substance that is dissolved in a solvent is called a**

- A. solute
- B. solvent
- C. solution
- D. solubility

**4. The ability of one substance to dissolve in another is called its**

- A. solute
- B. solvent
- C. solution
- D. solubility

**5. Sometimes raising the temperature of the solvent can speed up the process of dissolving the solute.**

- A. true
- B. false
