My two kittens

Hi, I'm Salma. I have two kittens, Fluff and Tig. Fluff is small and gray, and Tig is small and black.

Fluff is a living thing, she is an animal. Fluff breathes air and she needs food. Every day I can watch her grow and change.

Tig is a toy, he is a nonliving thing. Tig doesn't breathe and he can't grow. He can only move if I move him.

I like to play with Fluff and Tig. I need to take care of them both.

1. Fluff and Tig are living things.
