

Activity 1. Look at these pictures and try to classify them

Let's look at some pictures.

What are these flashcards about? Are they alive? Are they dead? Let's try to classify them into two columns. You should stand up, come to the blackboard, choose one flashcard and classify it into one of the columns.

Do you think it is a living thing or a non-living thing?

I am not sure. I think it is a living thing because it is alive.

I know that it's a non-living thing.

LIVING THINGS	NON-LIVING THINGS

TOADSTOOLS

AIR

ALGA

A GEMSTONE

A SUNFLOWER

A FROG

A WHALE

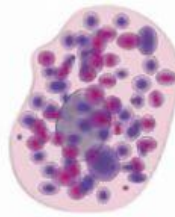

A BABY

SAND

A BEE

A CELL

BACTERIA
