Formative test

Choose the correct answer a,b,c,d,e

Ladies and Gentlemen, in case of emergency,
take the life jacket which is located under your seat.
Put the life jacket over your head and then fasten the jacket tapes around you're your waist.
Do not inflate the jacket until you left the aircraft. The jacket will be automatically inflated by pulling a cord, but if not, you can blow into the chip to inflate it.
A light is attached to the jacket for attracting attention. The life jacket should be removed only in case of emergency.
The use of TV set, AM and FM radios and radio cassettes recorders, walkman, and any mobile phones are prohibited on board as they interfere the communication and navigational system. We wish you an enjoyable flight.

1. Where is the life jacket located?

A. Over the head

B. Around the waist.

C. Outsite the aircraft.

D. In the back of the seat.

E. Under the seat.

2. What can interfere the navigatioanl system?

A. Table.

B. The life jacket.

C. Mobile phones

D. The attached light.

E. Tapes around the waist.

1. Sitting on a bike, make sure you know where the bikes are and how to operate them
2. You have to learn to balance the bike. Find a person who can hold your bike behind you and try to go steady as you pedal it
3. Finally, you have to practice. Once you can balance, pedal, start, and stop, you are bicycle rider. Congratulation!
4. As you gain experience, raise the seat up so that only your toes can touch the ground while you are seated.
5. When you are ready, ride alone. But first, lower the seat until you can sit and put both feet flat on the ground
6. After practicing for a couple minutes, the person can release his or her hands while you try to keep your balance

LIVEWORKSHEETS

3. Arrange these sentences below into a good order

A. 1 – 2 – 3 – 4 – 5 – 6

B. How to connect your burch smartphones to hidden network.

C. How to connect to Wi-Fi if you are outside the range of networks.

D. How to connect your burch smartphones to Wi-Fi.

E. How to search for available wi-fi networks.

Is your refrigerator getting messy and dirty? I'll advise you on how to clean it.
First of all, prepare a cloth, a dish towel, a knife or spatula, vinegar and some water.Then, empty the refrigerator. Place the things on the table or in empty baskets. Throw out aged or inedible food. Toss out anything you don't use regularly.
After that, defrost the refrigerator. Use a knife or spatula to gently remove the ice built-up on the shelves and dispose of it.
Next, wipe your refrigerator inside and outside using a cloth, vinegar and water. Rinse the cloth properly with clean water. Also, do not neglect to clean the door.
Finally, use the dish towel to dry the refrigerator. Let it dry thoroughly before you replace everything. You should keep your refrigerator organized with meat, cheese and butter on

LIVEWORKSHEETS

one shelf. It will be better if you store raw meat on the bottom shelf to avoid meat juices dripping on to the shelf below. Put the vegetable in the crisper.

Clean your refrigerator once a month. Please remember, do not wash a cold glass shelf with hot water. The sudden temperature change could shatter the glass.

8. Why should we put the meat on the bottom shelf?

A. To spare more space for other items

B. To make the meat easy to store and take

C. To make the refrigerator durable

D. To keep the other shelves clean

E. To keep the freeze organized

9. From the text we can conclude that....

A. We don't need to clean the door

B. We must not use sharp tools to remove ice

C. We should clean our refrigerator one a month

D. We need less than five items to do the procedure

E. It's better to use hot water to wash a cold glass shelf.

10. The sentence "do not wash a cold glass shelf with hot water" could possibly restated as…

a. you wash cold glass shelves with cold water
