

Unit 11

OUR GREENER WORLD

C. READING

IX Read the passage and do the tasks.

Environment is an important part of our life. A clean environment is necessary for a peaceful and healthy life. An environment helps human beings, animals and other living things to grow and develop naturally. But nowadays, people are destroying environment in many different ways. There are many kinds of pollution such as air pollution, soil pollution, water pollution. It does not only ruin human lives but also affects on all living beings.

We can save our environment by many ways: recycling, reusing, and reducing. We can recycle plastic bottles and plastic bags. We can also reuse plastic bags or old bottles. We should reduce the amount of waste, noise and electricity. It is very important to save environment. When we protect the environment, we are protecting ourselves and our future as well.
