

Structure of Earth_Grade 7

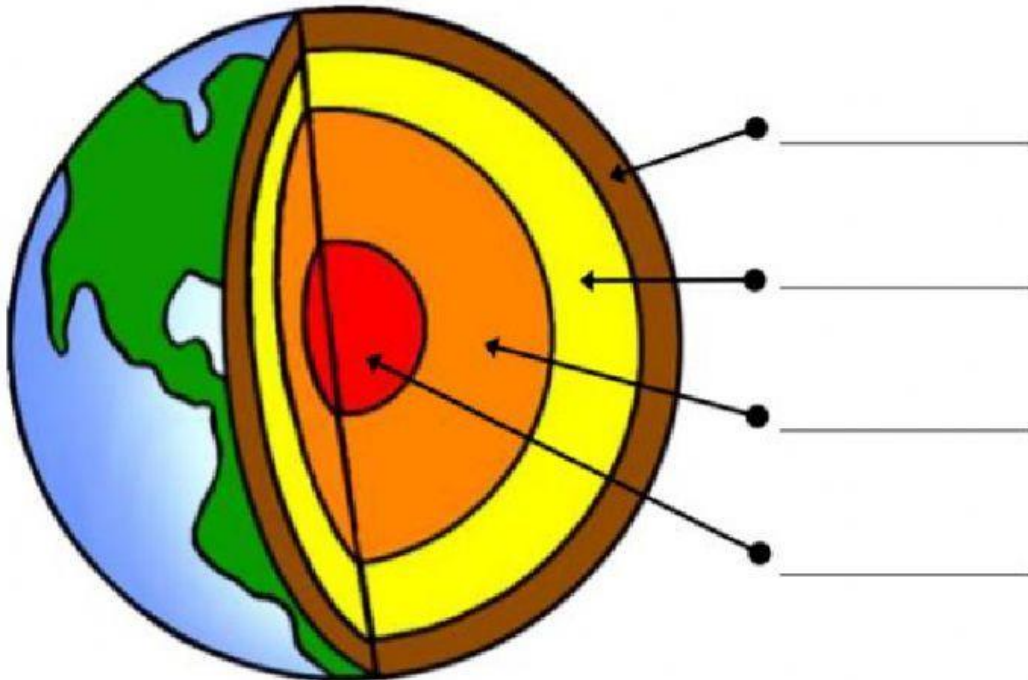

Label the layers in the structure of the Earth.

mantle

inner core

crust

outer core

Draw a line to match each layer of the Earth to its description.

continental crust •

oceanic crust •

mantle •

outer core •

inner core •

• Solid ball as hot as the surface of the Sun

• Made of liquid iron and nickel

• The part of the Earth we live on

• Where volcanic lava comes from

• Layer directly under the oceans

Structure of Earth_Grade 7

Answer the questions.

Which layer do we live on? _____

Which layer generates Earth's magnetic field? _____

Which layer is the hottest? _____

On which layer does the crust float? _____
