Impact 1 – Unit4: Living together

Reading "Endangered animals "

The giant panda can be known by their black and white colors. Their thick hair keeps them warm in the cool, wet mountain zones.

The giant panda is one of the endangered animals living in the wild and the main reason for that is the destruction of habitat and lack of food resources like " Bamboos"

As the human population in China continues to grow, pandas' habitat gets taken over by development, pushing them into smaller and less livable areas. The panda needs to be saved and live in its natural home.

Read the statements and fill in the gaps with True (T) or False (F).

1- The giant panda is colored black and white with thick hair. ( )

2- They live in sunny, hot zones ( )

3- The Giant panda special food is bamboos ( )

4- The pandas' habitat is taken over by other wild animals ( )
