

## Lesson 3 • What are weathering and erosion?

### 1 Which is correct? Circle the right word.

- 1 **weathering** / **erosion**: The process that moves weathered material away from where it came originally.
- 2 **weathering** / **erosion**: Any process that breaks material like rock into small pieces.

### 2 What do these photos show? Match words (1–7) with photos (a–g).

1 glacier

3 erosion by wind

5 weathering by plants

7 deposition

2 erosion by gravity

**d**

4 erosion by water

6 weathering by water

a

b
