

Independent Practice ☆

Leveled Practice In 7–12, solve each equation.

7. $y - 12 = 89$
 $y - 12 + \square = 89 + 12$
 $y = \square$

8. $80 + r = 160$
 $80 + r - \square = 160 - \square$
 $r = \square$

9. $60 = x - 16$
 $60 + \square = x - 16 + \square$
 $\square = x$

10. $20 = y + 12$

11. $x + 2 = 19$

12. $z - 313 = 176$
