

## Place Value of 100,000s

You can write numbers that have 6 digits.

### Example

Each digit in the number 763,285 has its own value.

The value of the 6 is 6 ten thousands, or 60,000.

The value of the 7 is 7 hundred thousands, or 700,000.

### Solve

Write the digit in the place named.

1 123,765

hundred  
thousands
