

Let us subtract these numbers horizontally.

$10 - 3 = \square$

$3 - 1 = \square$

$1 - 1 = \square$

$7 - 7 = \square$

$9 - 9 = \square$

$9 - 3 = \square$

$7 - 3 = \square$

$9 - 8 = \square$

$5 - 2 = \square$

$8 - 2 = \square$

$10 - 1 = \square$

$7 - 6 = \square$

$5 - 4 = \square$

$5 - 3 = \square$

$8 - 1 = \square$

Subtract the following vertically.

$4 - 1 = 3$

$$\begin{array}{r} 6 \\ - 5 \\ \hline \\ \hline \end{array}$$

$6 - 3 = 3$

$5 - 3 = 2$

$$\begin{array}{r} 8 \\ - 4 \\ \hline \\ \hline \end{array}$$

$9 - 2 = 7$

$8 - 3 = 5$

$$\begin{array}{r} 4 \\ - 4 \\ \hline \\ \hline \end{array}$$

$4 - 2 = 2$
