

Simple Filter Model

Arrange the parts of the filter. Complete the diagram below by dragging the pictures correctly and writing its name.

The diagram shows a simple filter model. A blue plastic bottle with its bottom removed is inverted over a glass dish. The bottle's neck is placed inside a rectangular frame divided into four horizontal sections. The top section is labeled 'rocks'. To the right of the bottle, there is a small rectangular box containing a pile of grey gravel. Below the bottle and dish, there are four piles of different materials: rocks, sand, cotton, and gravel, each with a label underneath.
