

TO CAROL (From the french *carole*): to sing in a joyful manner.

instructions: Write down the meanings, listen to the songs and put the words where they belong

When we think of Christmas, there are many things that come to mind, like delicious food, opening presents and feeling very chilly!

One thing that many people look forward to is singing Christmas carols. But why do we sing them and where did they come from?

When did we start singing carols?

The idea of celebrating in December with special songs has many hundreds of years - even before Jesus was born. But of course they didn't call them Christmas carols then, because Christmas didn't exist!

In Roman times, when it was dark and cold, people used to cheer up with a winter festival called the Saturnalia. It was a long, noisy party, with lots of wild dancing and singing.

After Jesus was born and his teachings got to many parts of the world, his followers wanted to encourage everyone to become Christian.

But they didn't approve of all of this noisy winter partying. They wanted everyone to celebrate the Christian message properly by singing about the birth of Jesus, so they put new Christian words to the old favourite songs.

The word 'carol' comes from the old French word 'carole', which - from around the mid-1100s - meant a popular circle dance accompanied by singing." By the late Middle Ages, carols had become more associated with Christmas and the nativity.

Many people couldn't read or write, so they learnt their carols by heart. This means that some of the oldest carols have been lost or forgotten because nobody wrote them down. But, luckily, many of them did survive and were printed in carol books so that we have them to sing today.

Know in your heart it soon will be gone.
